Dr. Jay R. Roland  
Director - Project Development

April 20, 2001

Mr. Gil Tam, Manager  
Grid Contracts  
Southern California Edison Company  
Room 460, GO #1  
2244 Walnut Grove Avenue  
Rosemead, CA 91770

Subject: Pegasus Power Partners, LLC TO Tariff Service Request

Dear Mr. Tam:

This is to formally submit Pegasus Power Partners, LLC's (an affiliate of Delta Power Company) application for service pursuant to the Transmission Owner's Tariff, to interconnect four (4) 45 MW gas-fired simple cycle electricity generating units (total of 180 MW) into the Southern California Edison Company ("SCE") system. The interconnection is currently envisioned to be with the existing 230 kV Chino-Serrano line at an interconnection point approximately one half mile south of the intersection of Eucalyptus Avenue and Magnolia Avenue in Chino, through installation of a new line from the Pegasus Project to a to be built interconnect facility adjacent to the existing 230kv line.

The project will be constructed on the grounds of the California Institution for Men (CIM), south of Eucalyptus Avenue, between Central Avenue and Magnolia Avenue, Chino, San Bernardino County, California. See enclosed USGS aerial photo.

Contact information for the applicant is as follows:

Project Name: Pegasus Project

Project Owner: Pegasus Power Partners, LLC  
89 Headquarters Plaza  
North Tower, 14<sup>th</sup> Floor  
Morristown, NJ 07960  
(973) 993-1855  
(973) 326-1821 (fax)

Contact Person: Dr. Jay R. Roland  
1845 Capri Circle  
Costa Mesa, CA 92626  
(714) 437-5036  
(714) 925-3859 (mobile)  
(714) 437-5051 (fax)  
E-mail: jroland@deltapower.com

Additional technical information for the project, consisting of a site arrangement drawing, single-line diagram, aerial photograph of site vicinity (same as enclosed photo), and turbine-generator modeling data (governor, exciter, and power system stabilizer) was previously sent (April 11 and 12, 2001) to your Mr. Ray Turner by Black & Veatch. Black & Veatch is currently providing permitting and licensing services and preliminary engineering services for the new generating facility, and will also be responsible for the detailed design of the facility.

We request that Southern California Edison Company initiate expedited procedures pursuant to Section 10.8 of the Transmission Owners Tariff for this new facility, and pursuant to Governor Gray's Executive Order D-26-01.

Should you have any questions or require any additional information, please do not hesitate to contact me at (714) 437-5036.

Very truly yours,

Enclosure
